### What is a critical incident?

Any event that causes a strong emotional reaction with the potential to interfere with a person's ability to function. An accident that has the ability to overwhelm an individual

## Examples of a critical incident

- Serious injury or death of a co-worker
- Suicide of a colleague
- Mass Casualty incidents
- Death of children or adolescents
- Serious injury or death resulting from the actions of an emergency worker or staff member
- Loss of patient life after a prolonged or extensive effort
- Incidents that attract extensive media coverage
- Incidents where responders know the victim
- Any incident that is charged with profound emotion

## Group Crisis Intervention

Designed to present the core elements of a comprehensive, systematic and multi-component crisis intervention curriculum, the Group Crisis Intervention course will prepare participants to understand a wide

range of crisis intervention services. Fundamentals of Critical Incident Stress Management (CISM) will be outlined and participants will leave with the knowledge and tools to provide several group crisis interventions, specifically demobilizations, defusing's and the Critical Incident Stress Debriefing (CISD). The need for appropriate follow-up services and referrals when necessary will also be discussed.

## Program Highlights

- Relevant research findings
- Relevant recommendations for practice
- Incident assessment
- Strategic intervention planning
- "Resistance, resilience, recovery" continuum
- Large group crisis interventions
- Small group crisis interventions
- Adverse outcome associated with crisis intervention
- Reducing risks
- Critical Incident Stress Debriefing (CISD)

## Assisting Individuals in Crisis

Crisis Intervention is NOT psychotherapy; rather, it is a specialized acute emergency mental health intervention which requires specialized training. As physical first aid is to surgery, crisis intervention is to psychotherapy. Thus, crisis intervention is sometimes called "emotional first aid". This program is designed to teach participants the fundamentals of, and a specific protocol for, individual crisis intervention.

## Program Highlights

- Psychological crisis and psychological crisis intervention
- Critical incident stress management
- Evidence-based practice
- Basic crisis communication techniques
- Common psychological and behavioral crisis reactions
- Putative and empirically-derived mechanisms

SAFER-Revised model  
Suicide intervention  
Risks of iatrogenic "harm"

Included with the course are the textbooks "Group Crisis Intervention", by Jeffrey T. Mitchell, and "Assisting Individuals in Crisis" by George Everly, both from the ICISF. As well, participants receive a Certificate of Completion for each course.

## Why should I attend?

This course lays the foundation for helping those affected by a critical incident. We provide you with the knowledge, training, tools, and practice, to help those that help others. To provide psychological or emotional first aid for those that may have Physical, Emotional, Cognitive, or Behavioral signs and symptoms.

Some of the goals of CISM include: Mitigate stress, facilitate psychological normalization & lower tension, accelerate the recovery process, provide information and set reactions, educate on stress management and coping skills, reduce the sense of chaos, psychological triage and referral if needed.

This course is designed for anyone who desires to increase their knowledge of Individual (one-on-one) or Group crisis intervention techniques in the fields of business & industry, crisis intervention, disaster response, education, emergency services, employee assistance, healthcare, homeland security, mental health, military, spiritual care, and traumatic stress.
