### What is a critical incident?

Any event that causes a strong emotional reaction with the potential to interfere with a person's ability to function. An accident that has the ability to overwhelm an individual

## Examples of a critical incident

Serious injury or death of a co-worker

Suicide of a colleague

Mass Casualty incidents

Death of children or adolescents

Serious injury or death resulting from the actions of an emergency worker or staff member

Loss of patient life after a prolonged or extensive effort

Incidents that attract extensive media coverage

Incidents where responders know the victim

Any incident that is charged with profound emotion

## Strategic Response to Crisis

Knowing what sequence of crisis intervention to use, for which individuals or groups, at what times, and under what circumstances is crucial to all early intervention programs. This course will present essential information for the assessment of both the crisis situations and the effects of critical incidents on people involved in those situations. Learn to create an effective plan of action to assist those in crisis and complete a series of exercises designed to sharpen assessment and crisis planning skills. Strategic planning and tactical decision planning are emphasized, as are rationales for choosing one set of crisis intervention processes over another.

This course builds confidence that crisis interventionists will make the right choices of interventions for the populations they are assisting under specific circumstances. This course requires previous training and experience. ICISF's "Group Crisis Intervention" and "Assisting Individuals in Crisis" should be viewed as prerequisites.

### Program Highlights

- Strategic planning as it applies to crisis intervention
- Incident Management System and crisis intervention
- Elements of effective planning
- Steps in developing the plan
- Planning process in assessing target populations

- Determining the type, timing, and resources necessary
- Assisting large numbers of people involved in a crisis
- The most important crisis intervention tactics
- Managing a complicated or large scale crisis event

Completion of "Strategic Response to Crisis" and receipt of a certificate indicating full attendance (14 contact hours) qualifies as a class in ICISF's Certificate of Specialized Training Programs

This course will give a brief review of "IMS Incident Management System", and "BEM Basic Emergency Management".
